Dist. 205 To Drop 2¢ Levy

By MARGE RATCLIFFE

LOCKPORT-- The District 205 High School Board adopted a resolution at their May 28 meeting to abate the 2-cent levy for Special Education building purposes.

The resolution states that it is in the best interests of the district to abate the levy. Until recently, the 205 board has been the administrative district for the special education co-operative. At a recent meeting, the special education board voted to name Milne-Kelvin Grove District 91 as the administrative district.

Board member Felix Borio asked Mrs. Joan Straka, 205's representative on the special education board, if any of the grade school districts which participate in the co-operative would pick up the levy. She said that all the superintendents of the various districts had been informed by letter of the high school's intention to drop the levy.

William Brill, the board

president, asked attorney John Cirricione if the 205 board would still be obligated for auditing services for the co-operative, since it has been relieved of administrative responsibility. He was told they would be for the remainder of the fiscal year.

In other business, the board discussed the property in Bolingbrook, the proposed site of a fourth high school, on which it must exercise its option by July 1. William Long, the district's business manager, told the board that 29 percent of the purchase price, or \$92,220, must be paid by July 1. He further explained that the same amount will be due in July of 1971, with the balance of \$118,560 due July 1, 1972.

No decision was made, and further discussion was assigned to the Building and Grounds committee. Brill stated a recommendation would not be made until after the hearing by the County Board of School Trustees regarding the detachment of District 96 and 40-C from District 205. The hearing has been set for June 10.

- Adopted a resolution to pay custodial and maintenance expenses from the building fund, because of the lack of adequate monies in the education fund for these costs.

- Accepted with regret the resignations of Donna Pesavento, English instructor at Lockport East, and Russell Kramer, as District Coordinator for Vocational Business and Industrial Education. Kramer is not resigning from his teaching position.

- Reemployed Brian C. Boland, to replace Donna Pesavento, at a salary of \$8632 based on the 1969-70 salary schedule.

- Heard a letter from Union Oil Company requesting the Lockport Central-East Band to play at the company's grand opening on June 29. The letter stated they were anxious to have the Music Man Band, and that they would donate an additional \$200 to the \$100 previously donated to the Lions Co-curricular Fund in appreciation. Willard Prynne, principal at Lockport Central, said he had talked with Ernest Caneva, the band director, and the band will not be able to accept the invitation, because there is no summer band program this year.

ZONING BOARD ACTS

Approve Big Development

LINCOLN ESTATES -- All 28 of the petitions for zoning changes in the 597-acre tract at Harlem Av. and U.S. 30 where Hoffman-Rosner Corp. is planning a large development, have been approved by the Will County Zoning Board of Appeals.

They will now come before the Subdivisions and Zoning Committee of the Will County board and it is ex-

pected that the petitions will be submitted to the board at its meeting June 8.

The zoning board hearing was conducted May 25 in the Ann Rutledge School and it was a long session but very orderly. A representative of the developers spent more than two hours explaining the plans and showing pictures.

Attorney Paul Brumund

represented Hoffman-Rosner and also present for the company was a vice president, Lowell Siff.

The plans call for development of 267 acres as single-family dwellings in the \$25,000 -- \$35,000 price range. There are 181 acres destined for townhouses in the \$20,000 -- \$25,000 bracket.

The number of single family dwellings will range from 969 to 995. There are 1,365 townhouses planned and 970 apartments.

There will be business and commercial zones taking up 21 acres. Siff said there are 47 acres set aside for

school and park sites, and an acre for a fire house.

It was estimated at an earlier meeting that Arbury Hills and Ann Rutledge school districts will have an additional 3,000 enrollment when the development is completed and Lincoln-Way High School can expect another 1,000 students.

According to the developers it will be eight or 10 years before the project is finished. The developers said that when the grade schools exhaust their bonding power -- which is practically now -- they will con-

Mokena Boy, 4, Drowns in Yard Pool

MOKENA--A plunge into a neighbor's elevated swimming pool was fatal to 4-year-old Kevin Michael Cumbee Tuesday night May 26. Mouth-to-mouth resuscitation and an inhalator were used in a effort to revive the youngster but it was useless. He was taken to Silver Cross Hospital, Joliet, where he was pronounced dead on arrival, a few minutes before 9 p.m.

Kevin, the son of John E. and Katherine Cumbee, 9519 Birch St., was in the yard of a neighbor, Joseph Mangan, 9205 Hickory St., playing with another 4-year-old, Rick Mangan. An 18-year-old sister of Rick, Francine, saw the two boys playing in the yard about 7:50. She later told Mokena Police Chief Wayne Ryder

and Officer Harold Fitch that she went in the house and upstairs for a few minutes. When she came down she saw her brother come into the house, dripping wet. He informed her that he and Kevin had jumped into the swimming pool. At about the same time Mrs. Lois Mangan, arrived home accompanied by a son, Joseph, 14.

Joseph, a brother, William, 13, and a neighbor boy, Chris Hayden, 11, plunged into the pool--it is 24 feet wide, 48 feet long and four feet deep--and brought Kevin out.

They found him lying on the bottom of the pool. The three boys started mouth-to-mouth resuscitation and gave way a few minutes later to William Haas, a Mokena fireman, who tried to restore breathing through the manual method. The fire department rescue squad arrived with an inhalator and when it failed to help the boy was then taken to the hospital.

Chief Ryder, who with Officer Fitch, had learned of the accident at 8:18, said the pool was fenced in and the gate was locked. There is a filter at the side of the pool and police believe the youngsters got on that and

IBT To Bury Cable

LOCKPORT — Illinois Bell began burying new telephone conduit and cable in southeast Lockport about May 25. P. T. Ferro Construction Company was contracted to bury the new concrete conduit and construct seven manholes.

"We'll be burying conduit along Garfield Street from 9th Street to Division Street then east to approximately 750 feet past Grandview Avenue," said Robert Crane, district construction supervisor.

"Once the conduit is buried and the area restored, Illinois Bell linemen will place 4,100 feet of cable in one of the six ducts," added Crane. "The remaining ducts will be used when needs require, and no further digging will be necessary." A total of seven new manholes will be constructed on the west side of Garfield and on the south side of Division.

"This project will enable us to keep pace with the area's present needs while preparing for its future growth," said Crane. "From start to finish, including restoral work of the area affected, the conduit project should take approximately four weeks."

In connection with this project, about 1,500 feet of cable will be buried on Division Street from Garfield Street west to Lawrence Avenue.

Receive New Radio Units

ROMEOVILLE — Romeoville Police have become one of the first law enforcement agencies in Illinois to receive mobile radio units which will link them to a state-wide emergency communications network.

Police Chief Hayes said his agency has received three units as a part of the Illinois State Police Emergency Radio Network (ISPERN), the first police car-to-car communications system of its kind in the nation. The ISPERN frequency will enable the Romeoville Police to communicate with municipal, county and state law enforcement agencies immediately in emergency situations, he said.

The ISPERN units were furnished at no cost by the Illinois Department of Law Enforcement through funding by the Illinois Law Enforcement Commission. Ro-

meoville Police are responsible only for the cost of installation and any equipment needed to monitor the network frequency at police headquarters.

The new radios, designed by the General Electric Corp. are easily distinguished by their bright red microphones. By the end of 1970, the Illinois Department of Law Enforcement expects these units to be installed in every police vehicle in the state.

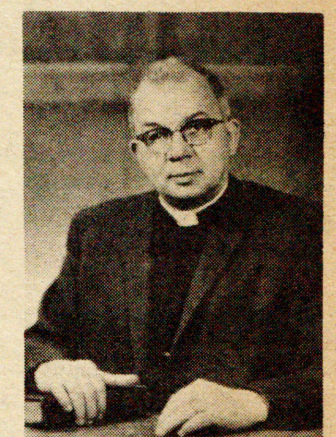

"As a participant in ISPERN, our agency will be able to coordinate and cooperate more effectively with other law enforcement agencies in the area in the war on crime," Police Chief Hayes said. "We are proud to become a member of this frequency and to join other Illinois agencies in this pioneering project in police communications."

tribute \$400,000 to the construction fund.

Some seven acres will be set aside for church sites and the land will be sold to and churches at cost, Siff said.

The Prestwick Homeowners, the Lincoln Estates Homeowners and the Connecticut Hills Homeowners made objections to the development. They contended that Hoffman - Rosner are not quality builders.

They also complained that all this roof water that would drain off from the development would add to the water problems of the area. They also contend that the development calls for too great a density of population.

It has been estimated that the population of the subdivision will run at least 10,000.

The Tinley Park Long

Range Planning Committee was the only group present, to speak in favor of the project. The committee suggested some road changes to ease traffic flow. The Tinley group also contended that Hoffman-Rosner were quality builders.

Supt. William Avilla, of Arbury Hills School, said he wanted the developers to put the offer, to aid the schools with sites and money, in writing. Supt. Joseph Jruzich, of Lincoln-Way High expressed the hope that the developers would consider the financial problem the subdivision would place on the high school district.

A Joliet real estate man, Herb Regan, said he thought the development would add to realty values in the area.

Sewage treatment for the development would be furnished by Utilities Inc., of Prestwick, it was said.

Prynn further stated the band has had several requests for the summer months, including the Park District's 25th anniversary and the 75th anniversary of the Fire Department.

Board member Stanley Chapas asked if Caneva would be willing to donate his services for summer band, and Prynn said he didn't know, but thought it was doubtful. Allen McCowan, principal at Lockport East, said he thought the board would place the band director in a difficult position since they could not be expected to play without practice. Chapas suggested the discussion be tabled until someone could get together with the band parents and see what arrangements could be worked out.

Richard Manley, newly elected president of the Lockport American Federation of Teachers, Local 1291, presented the board with petitions bearing 170 signatures, requesting that a collective bargaining election be held in September of 1970.

Following the meeting, the board met informally with several members of the Lions Club's committee which is attempting to raise \$130,000 for co-curricular activities in the district next year.

Summer Fun

Very shortly, all of us who complained about how cold it was will begin to complain about how hot it is. Instead of fighting "this bitter cold", we'll try to overcome "this awful humidity."

We've reached the end of snow tires, boots, lost mittens, and the great who-will-shovel-the-walk debate. Happily, we can begin to argue about who will mow the lawn, and start looking for bathing suits, swim fins, and a new out-door grill.

It's the time of the year when wives go outside to check on the progress of an unwilling painter and find a deserted ladder, a sticky brush, and an empty space where the painter was. Husbands hurry through their appointed tasks, in order to find extra time to pursue happiness and a little white ball.

The kids are counting the days until school is out, and so are their mothers, for different reasons. Women discover

last year's bathing suit doesn't seem to cover as much territory as it did last year, and begin a summer diet, in an effort to reduce the territory.

It's time for picnics and ants, cook-outs and mosquitoes, Kool-aid and spilled sugar -- and ants -- drive-in movies, and tackle boxes. Also weddings, visits to grandmother, iced tea and vacations.

Meals become somewhat haphazard, children are allowed to get dirtier, men get convertible fever, women clean closets frantically, throw away unwanted items, then go to garage sales and buy somebody else's unwanted items and stash them in closets.

Mothers who have spent the last few months warning against pneumonia are now issuing health precautions against sunstroke. Children are still not paying attention.

It's undoubtedly the best time of the year.

Pass Hitchhikers

Are you one of those motorists who sees a hitch hiker and ignores him or are you a Good Samaritan type who yields to his pleading thumb and picks him up?

If you are the kind that ignores this lift beggar the chances are that you will live longer, or at least escape the pain and ache that a bat over the head or a knife blade in your inards can induce. You also are likely to save your car and money.

You don't believe this? You don't believe hitchhikers, collectively, are a deadly group?

Well, there are a lot of statistics collected on hitchhikers that indicate they are a poor risk. Feel sorry for them, if you like; consider them a social problem, if you will but--don't stop and don't give them a ride.

There are figures gathered by those connected with law enforcement in 1969 showing that those friendly-looking, thumb waving fellows waiting along the road were responsible for an estimated 35,000 assaults, murders and thefts!

Hitchhikers are growing in numbers, according to available figures. They also are mauling, robbing and killing at a rate higher than before.

A few years ago a police check of 100 hitchhikers revealed that 83 of them had criminal records.

And it doesn't seem to make much difference if the thumbs are young, or old, male or female.

Check passers sometimes make use of a woman and a small child, or even infant, as props when fleecing merchants. The presence of the woman and baby lend a domestic touch to the scene -- a family on a shopping expedition -- and it is surprising how often the set-up serves to lull the merchant into accepting the situation as bonafide.

The same device is sometimes used by hitchhikers with disastrous results for the car owner who obligingly gives them a lift.

There is no doubt that there are many hitchhikers who are honest people and have no intention of robbing or assaulting anyone, but how is one to know? These honest people are taking a chance themselves in thumbing rides. Not all motorists are good guys because they stop to give someone a lift some who pick up people with robbery or assault in mind.

Most states have laws against hitchhiking but apparently these laws are seldom enforced. Records show that police find many criminals (through) arrests for traffic violations. It is quite possible that they could clear up more crimes by picking up hitchhikers.

Letters

Dear Editor:

We would like to share a bit of good news -- a sort of "progress report" -- with our many neighbors and friends in Lemont village and township who have helped us work against the threat of a sanitary landfill in Mt. Vernon Memorial Hills, Inc.

The case is not yet decided and may not be for several weeks -- or months -- but we have gained one successful step: the Cook County Zoning Board of Appeals in the meeting at the Civic Center in Chicago on May 20, recommended to the Cook County Board of Commissioners that the Commissioners DENY the Special Use Permit sought by the owner of Mt. Vernon Memorial Hills, Inc., for the landfill.

We are very grateful for this recommendation and earnestly hope that the Commissioners will thoughtfully consider and accept it in making their final decision.

We deeply appreciate the cooperation and support of so many in the community who circulated and/or signed petitions against the landfill proposal, attended public meetings, offered hospitality in their homes or churches or park for neighborhood meetings, and helped with the financial burden.

We especially thank the editors of this newspaper for their generosity with space to keep you informed on this issue over the past 18 months.

Very truly yours,
Louis F. Buckner

Dear Editor:

In 1942 Congress created an official set of rules for displaying and honoring the flag. These rules are called the Flag Code. Congress also set penalties for persons who violate the Flag Code. Penalties include fines up to \$250 and jail sentences of up to six months.

Owning a flag and displaying it correctly at the right times are marks of patriotism and respect.

At times the peace movement has been marred by violence. The flag has been lowered and torn and kicked. This lack of respect may anger and disgust many of

us as we read about it or see it on television. A site in Lemont angered me just as much on Friday, May 15.

As I drove into Lemont our flag was visible near the corner of State St. and Main St. It flies there 24 hours a day on the park district property. The flag itself belongs to the Lemont American Legion Post.

The flag was an obvious victim of the heavy thundershowers of the past few days and was torn in long strips. It's a shame that the flag is ever seen flying in this condition. How many people still care?

The next morning I went to the Lemont Police Dept. to notify them of the damaged flag. I was told that those in charge of it would be notified. Perhaps someone was notified, but today, one week later (May 22) the shaggy, soiled flag still flies.

To The Editor:

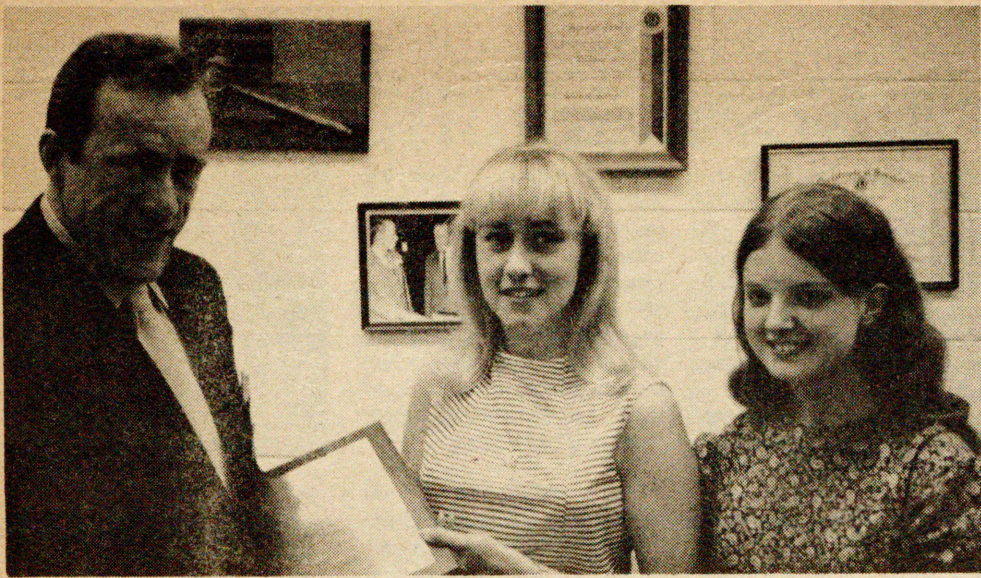

I have just returned from Memorial Day Services at Mt. Vernon Cemetery, which were probably very touching and beautiful, except for one thing. I didn't get to see them, nor did members of our family including an aging World War II veteran who can hardly walk but made the effort on this day to pay honor to his fellow comrades.

Services were scheduled for 9 a.m. and yet by 10 minutes til 9 the Veterans Organizations were on their way out of the cemetery all finished. This is the second year this has happened. Why schedule services if they are going to be 15 to 20 minutes early? Why are they in such a hurry? Why bother? Those fallen veterans who are buried there weren't in a hurry when they gave their lives!

My son gave his life in Vietnam and to us, his family, this day and the services scheduled in all the fallen heroes' honor mean a great deal to us. Why must we be disappointed year after year?

If services are scheduled for 9 a.m. let's hold them at 9 a.m. The picnics and parties can wait!

MANHATTAN--Funeral services were held last Friday morning in St. Joseph Church, Manhattan, for Leo Murphy, 72, a Jackson Township farmer, who was fatally injured May 26 when run over by his own tractor.

The accident happened in the farm yard. Murphy was standing alongside the machine adjusting the self starter, apparently unaware the tractor was in gear. It started off and bowled him over.

He was well known in farming circles and was a director of the Old Time Threshers Association, the Farm Bureau and the Holy Name Society of St. Joseph Church. In the 1950's the Murphys were selected as Will County's Outstanding Farm Family.

A son, Gerald, was one of the several children killed in a bus accident on what is now Ill. 53, near Laraway Rd.

He is survived by his wife, the former Katherine Vetter, five daughters and six sons, one of them, Joseph, resides at New Lenox; Patrick and George live at Elwood, David

in Manhattan and William and Leo Jr. in Joliet.

Four of the daughters reside in Joliet, Mrs. Norene Brandt, Mrs. Molly Glog, Mrs. Kay Buckman and Mrs. Barbara Stover; the other daughter Mrs. Jean Gaffey, resides at Owensboro, Ky. Two brothers Joseph, Manhattan, and Roy of Westchester, also survive as do 26 grandchildren.

Insurance Questions

I am a young man with an average income and I don't own my own home. An insurance agent tried to sell me a big auto liability policy but it seems to me I don't need that big protection. How about it?

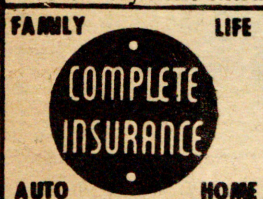

ANSWER:

You are wrong. You are just as likely to have an accident as a rich man and you could lose a resulting law suit. If you couldn't pay damages you might be paying on a deficiency judgment for the rest of your life. High limit liability insurance costs very little extra.

Mokena Will Collect Bills For Scavenger

MOKENA -- Following a decision announced some weeks ago, the Mokena village board has adopted an ordinance covering collection of fees for garbage disposal. In the past the residents have paid their bills

for garbage pick-up as individuals. They paid the garbage firm direct. Now they will pay the village, at the same time they pay their waterbills -- every two months. The new setup becomes effective Aug. 1.

The village board is to seek bids from scavenger firms for the contract. It will cost each single family dwelling owner and each apartment unit resident \$2 a month. Commercial pickups will cost \$2 a cubic yard.

Householders must provide garbage receptacles of not more than 30-gallons capacity and be equipped with tight-fitting lids. Cans may be set out as early as 5 p.m. on the day preceding the collection date and must be taken in before 7 p.m. of that date.

The ordinance appears on another page in this newspaper.

The village has also adop-

ted an ordinance authorizing the purchase of 1½ acres for expansion of the sewage treatment plant. Village Attorney George E. Sangmeister has been instructed to negotiate for the property and if a satisfactory price is not agreed upon he is to start condemnation proceedings.

The board also voted \$200 toward the expense of setting up plans for a communication center that would serve the three municipalities in the Lincoln-Way area -- Mokena, Frankfort and New Lenox. The other two villages had each appropriated a similar sum for the purpose.

It is planned to put the central station at New Lenox. It was said that five persons will have to be hired as operators so that 24-hour service is maintained. New Lenox will have two mobile radio units hooked up with the Illinois State Police Radio Network that can be used in the area plan.

After plans are completed for the proposed area radio hook-up they will be submitted to the village boards. Thurs. the village trustees will have final voice on the matter.

Mrs. Sproat, Teacher For 23 Years, Retires

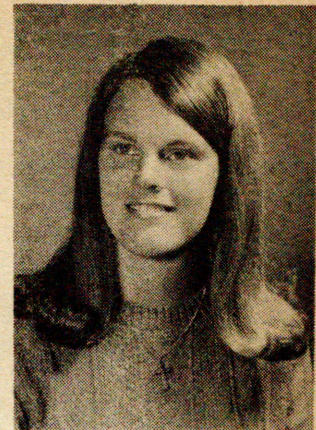

MARLEY -- Mrs. Edward Sproat is retiring from the teaching service after having taught for 23 years. She is presently on the staff at Haines School, New Lenox and has taught second grade in the New Lenox system for the past thirteen years.

She began her teaching career in 1934 at the Wells Corner School in Homer Township. Before going to New Lenox, she taught at the Maple Street and Francis Schools.

Mrs. Sproat has witnessed the change in the educa-

tional system from the one-room school where she taught eight grades to the present system of consolidation with several teachers for each grade level in one school.

On Friday evening, May 8, Mrs. Sproat was one of four retirees who were honored at a dinner sponsored by the teachers of the New Lenox Education Association and the members of the New Lenox grade school board. They were presented pins in recognition of their service.

MISS JANET LINDSTROM a senior at Lockport Central High School, was named "Miss Future Secretary" at the Future Secretaries Association's annual spring banquet. Janet is the daughter of Mr. and Mrs. Harold Lindstrom, 111 E. 15th St., Lockport. Judges were Mrs. Florence Zimney, Mrs. Judy Jochen, and Mrs. Nancy Spria, all members of the Louis Joliet National Secretaries Association, which sponsors the Lockport FSA. Officers for FSA for the coming year are Debby Bottorff, president; Sue Dahlberg, vice-president; Donna Ekkert, secretary; and Virginia Baran, treasurer. Mrs. Dale Genseal is the faculty advisor.

Home need fixing?

A little painting and repairing can give a house a whole new lease on life. If you've ever wielded a brush, squared a sagging sill or replaced a shaky railing ... you know how satisfying it is. And what a sound investment!

With a Home improvement loan, you can really do wonders. Modernize a kitchen or bath, update a heating system, even add a room if you're ambitious. And it's as good as investing in Blue Chip stocks. Your home will be more enjoyable while you live in it ... you'll get more money for it, if you sell it.

Stop in soon! We'll arrange a low-interest Home Improvement loan that will suit you perfectly.

There are two **Linda Hicks** in Lockport, which comes as a great surprise to me, and I've been confusing them regularly, and thus passing on some pretty mixed-up information. One Linda Hicks was honored at Honors Day at ISU, and is a straight A student, but did not win the Women's Club scholarship. That's another Linda Hicks. Clear???

Miniature Harness Racing at Peotone

SOUTHWEST -- Miniature Harness Horse Racing will open the season at Peotone Downs June 6 and 7. Many hours and miles of training will pay off for Miniature Harness Horse drivers from four midwestern states when harness racing starts at beautiful Peotone Downs.

Conducted under the auspices of IOMI Miniature Harness Horse Assn., races will be run under the lights at 8 p.m., Saturday, June 6 and at 1:30 p.m., Sunday, June 7.

Peotone Downs is located at the Will County Fair grounds in Peotone. This new 1/4 mile track, constructed especially for miniature harness horse racing, offers considerable excitement for the spectator, since two complete circuits of the track are made in each race and participants are in full view at all times. There will be 17 races each day — both trot and pace.

Miniature harness horse racing attracts nearly 100 participants from the south

suburban area alone.

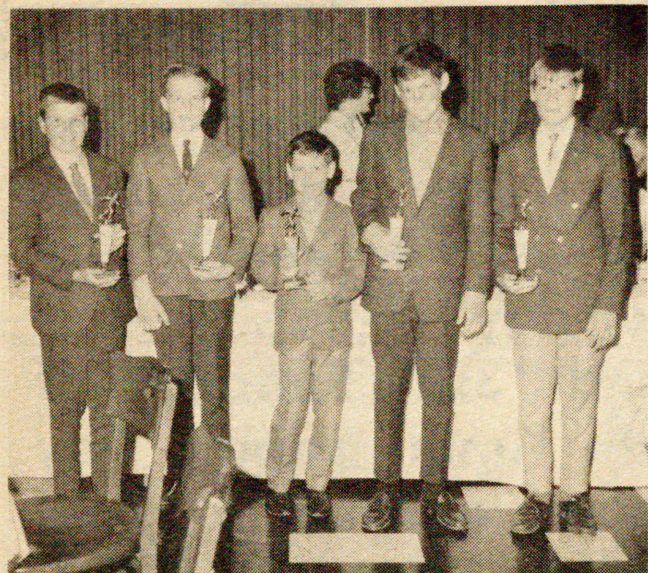

Racing is conducted under rules similar to those of standardbred harness horse racing with the only major exceptions being the distance and the height limitation of 50 1/2 inches.

Miniature harness horses are also nearly as fast as full size Standardbreds, for the world's record is 1:03.3, held by the fine pacing mare, Miss Afton Direct.

Additional race meets will be held at Peotone Downs this season on July 18 and 19, Aug. 9, and Sept. 19 and 20.

District 91 Litigation Dismissed

LOCKPORT -- Judge Stewart Hutchison ruled in Circuit Court Wednesday, May 27, that a motion to dismiss a suit filed by the City of Lockport against Grade School District 91, regarding the legal ownership of the old Central Grade School property, was well taken and granted the motion, dismissing the suit.

In September of 1969, the City filed a complaint, asking the court to declare the rightful owner of the property. The school district, through their Chicago Title and Trust attorney, Thomas R. Wilson, filed a motion to dismiss the complaint.

A hearing was held on that motion before Judge Hutchison, which resulted in the May 27 decision. Sam Saxon, of Plainfield, represented the City of Lockport in the case.

Boy Cut In Fall Against Glass Door

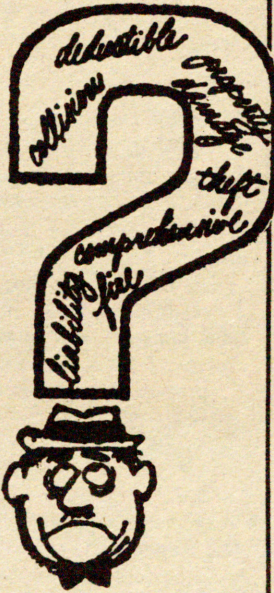

MOKENA--Running toward the exit in the north corridor of Willowcrest School last Wednesday, James Novak, 12, 18811 S. 113th Av., tripped over a floor mat and went plunging against the glass of the outer door. His left arm went thru the glass, cutting it practically to the bone on both sides of the forearm, starting about an inch above wrist and extending upward.

Police Chief, Wayne Ryder received the call at 12:10. He applied a pressure bandage, wrapped a towel about the arm and left the school at 12:15, arriving at Silver Cross Hospital at 12:25. Examination revealed that the tendons were not severed but it required 50 stitches to repair the damage.

James was permitted to return to his home Thursday night. He is a 7th grader pupil at St. Mary but attends some classes at Willowcrest in a share-the-educational facilities program adopted by the two schools.

AN ORDINANCE AMENDING THE MUNICIPAL CODE OF THE VILLAGE OF MOKENA, ILLINOIS AS ADOPTED APRIL 16, 1969

WHEREAS, it is deemed advisable that the Village of Mokena regulate the storage, collection and disposal of garbage and other refuse;

Be it ordained by the President and the Board of Trustees of the Village of Mokena, County of Will, State of Illinois, that:

There be added to the Municipal Code of the Village of Mokena, Chapter 20, Health Regulations, an Article II entitled: Garbage and Refuse, Regulation of Storage, Collection and Disposal, with the following sub-sections.

SECTION 1:

Definitions - For the purpose of this Ordinance, the following words shall have the meanings ascribed to them in this section.

a. Garbage - shall be interpreted to mean rejected food wastes and to include every waste accumulation of animal, fruit, or vegetable matter used or intended for food, and such material as may necessarily be used for wrapping.

b. Rubbish - shall be interpreted to mean such matter as ashes, cans, metalware, glass crockery, paper, boxes, rags and old clothing, wood, grass clippings, dirt, sweepings, leaves, weeds or litter of any kind.

c. Refuse - shall be interpreted to mean all solid waste of a community, including garbage, rubbish, dead animals, and solid market and industrial wastes.

SECTION 2: Prohibition of the Accumulation of Refuse.

The owner, occupant, or lessee of any premises in the Village shall cause to be removed from said premises all refuse and shall keep said premises at all times free and clean from any accumulation of refuse.

SECTION 3: Refuse Storage.

a. Garbage shall not be buried. All household garbage shall be drained, wrapped and stored in metal or plastic, non-absorbent, water-tight and easily washable containers with close fitting covers and adequate handles or bails to facilitate collection. The containers shall not be more than thirty (30) gallons in capacity. Household rubbish shall be stored in durable, metal or plastic containers with close fitting covers except for bulky rubbish such as trees, branches and large cardboard boxes; provided however, that newspapers and magazines, if not stored in containers, shall be bundled securely. Tree cuttings and branches shall be bundled securely in lengths not to exceed four (4) feet and diameter not to exceed two (2) feet. A plastic garbage trash bag may be used. The weight of any bundled refuse shall not exceed fifty (50) pounds.

b. Placement of containers - no refuse and/or garbage containers may be placed in front yard or parkway, except during the period from 5:00 P.M. on the evening prior to collection or to the evening of collection day. No refuse and/or garbage container may be left in front yard or on parkway after 7:00 P.M. of collection day.

No container used for the storage, collection and removal of garbage or other refuse shall be placed so as to constitute a nuisance to adjacent property or occupants thereof.

In all cases when a garbage or refuse container is placed on the rear of the lot for the purpose of having its contents removed, it shall be entirely within the lot line.

All institutional, commercial and industrial garbage shall be stored in durable, rust-resisting, non-absorbent, water-tight and easily washable containers, which shall have close-fitting covers and adequate handles or bails to facilitate collection. No more than four (4) thirty (30) gallon containers shall be allowed for each institution, commercial or industrial establishment. If more than four (4) are required to store garbage or refuse between collection periods, it will be necessary to provide one (1) Leach container (or equivalent) of at least one (1) cubic yard capacity or as many as is necessary to provide storage between collection periods.

All owners, management or leasing agents of town houses and apartments that are being leased or rented as single family units must provide at least one (1) Leach container (or equivalent) thereof of one (1) cubic yard capacity for every six (6) units or less. Container locations and methods must be acceptable to the Village Health Officer or authorized representative.

Containers as herein described shall be provided by and kept clean and in good repair by the owner, occupant or lessee of any premises in the Village.

SECTION 4: Frequency of Collection.

a. All household refuse shall be collected at least once each week.

b. All institutional, commercial and industrial refuse shall be collected according to the following schedule:

1. Garbage shall be collected at least twice each week and oftener if necessary to maintain proper disposal procedures.

2. Other refuse shall be collected at least once each week.

All refuse and garbage receptacles shall be subject to inspection and approval or condemnation by the Village Health Officer.

b. The scavenger or disposal service shall make collections once a week on a day designated by agreement between the Village and the scavenger or disposal service. There shall be no change in the day of collection except upon written notification by said scavenger to the Village and to each owner, occupant or lessee receiving garbage disposal service under this ordinance and any contract in implementation thereof.

c. That the sole service charges to owners, occupants, or lessees for the collection and disposal of household garbage and other refuse as hereinabove defined shall be as in this Section provided. Every such owner, occupant or lessee of a single detached dwelling shall pay to the Village the sum of FOUR DOLLARS (\$4.00) every two (2) months. Each multiple family row house, town house, apartment house or other dwelling shall pay to the Village the sum of FOUR DOLLARS (\$4.00) every two (2) months for each dwelling unit contained in the said building. Each owner of a commercial business or industry shall pay to the Village the sum of TWO DOLLARS (\$2.00) per cubic yard on each collection. The Village Clerk shall be responsible for issuing bills and maintaining the books of collection.

SECTION 7: Equipment.

a. Vehicles used for the collection or disposal of garbage, or of refuse containing garbage shall have liquid tight, enclosed metal

bodies of easily cleanable construction, shall be cleaned at sufficient frequency to prevent nuisance of insect breeding, and shall be maintained in good repair.

b. All public or private vehicles used for the collection or disposal of rubbish may have open bodies, provided that suitable provisions are made to prevent the scattering of rubbish.

SECTION 8: Contract Service.

In its discretion, the Board of Trustees may ask for and accept bids from a private contractor for the collection of refuse in the Village of Mokena. In the event such contract is entered into, said contractor shall be subject to the regulations of said Board as to the manner and method of collection and disposal of garbage and rubbish and no other private person, firm or corporation shall be permitted to furnish said service to said Village.

SECTION 9:

The Police Department of the Village is to warn persons to correct violations of this ordinance on the first violation. A record of each such warning shall be made. A second violation will result in a citation for violation of this ordinance.

SECTION 10: Penalties.

Any person who shall violate any provision of this Ordinance shall upon conviction be punished by a fine of not less than FIVE DOLLARS (\$5.00) nor more than TWO HUNDRED DOLLARS (\$200.00) and each day's failure to comply with any such provision shall constitute a separate violation.

SECTION 11:

That all ordinances or parts of ordinances in conflict herewith be and the same are hereby repealed.

SECTION 12:

This Ordinance shall be in full force and effect from and after its adoption, approval and publication, as provided by law, except that an additional period of three months will be granted for conformance with the provisions of Section 3 pertaining to size and amount of containers.

Tuttle Seeks Discussion On Sewer Extension Plan

MOKENA — Mayor Will Tuttle is arranging now to set up a meeting with property owners that would be served to discuss a proposed sanitary sewer that would follow 191st St. east of Mokena and to run diagonally to LaPorte Rd. at a point near U.S. 45.

It was reported at the village board meeting last week that engineers have estimated the cost at approximately \$270,000. This would serve several industrial sites and would also pick up

the regional headquarters and stadiums planned by the Little League.

Village officials would like to see the development of the industrial area, as would the schools. Taxing bodies are faced with a cut in income next year unless it can be supplemented in some manner. The personal property tax take next year will be smaller since a second car and household furniture have been exempted and the \$1,500 exemption in the real estate valuation on homes

owned by persons 65 years of age or older is figured to cut revenue from that source. Such exemptions must be claimed, however, and forms may be obtained from the assessors or the county treasurer's office.

When the village puts its vehicle stickers on sale the latter part of the year for the 1971 issue, it will also give the car owner a decal on which the "Pledge of Allegiance" is inscribed. These decals will cost the village five and a half cents each.

Property owners who have culverts under their driveways can either dig them out if they get plugged or have it done at their own expense, according to the opinion given the trustees by Village Attorney George E. Sangmeister. Trustees say they have had requests from property owners to have the village clean out these culverts.

The board discussed the condition of some of the sidewalks. Those below street grade level, such as former-

ly prevailed along Front St., are like canals after rains. In some instances, it was said, it would be impossible to fix a grade.

Trustee Kenneth Warning reported that he has requested the state highway department to have six dead trees removed from the state right-of-way in the vicinity of 193d and Wolf Rd.

The village is endeavoring to ascertain the status of its application for a federal grant under the Housing and Urban Development Act to enlarge its sewage

treatment facilities. The village must provide a polishing pond, for one thing, to improve the treatment of wastes.

It was reported at the meeting that four residents are slated to appear in magistrate's court at Joliet tomorrow (May 21) as a result of charges by the village that the junk and debris on their premises are a nuisance. The defendants are George Lauffer, Paul Iwasuk, Frank Pretzel and Robert Barcus.
